

Name:Malak Ahmed Mohamed Hamido

Id:2202125

Assignment 2 cloud section

Steps of the docker commands

After pulling the base image which is Jupyter/datascience-notebook

And also creating the Dockerfile

```
FROM jupyter/datascience-notebook
WORKDIR /app

COPY . /app

RUN pip install --no-cache-dir -r requirements.txt

EXPOSE 8888

CMD ["jupyter", "notebook", "--ip=0.0.0.0", "--port=8888", "--no-browser", "--allow-root"]
```

I saved the Docker file in folder named Cloud inside the documents

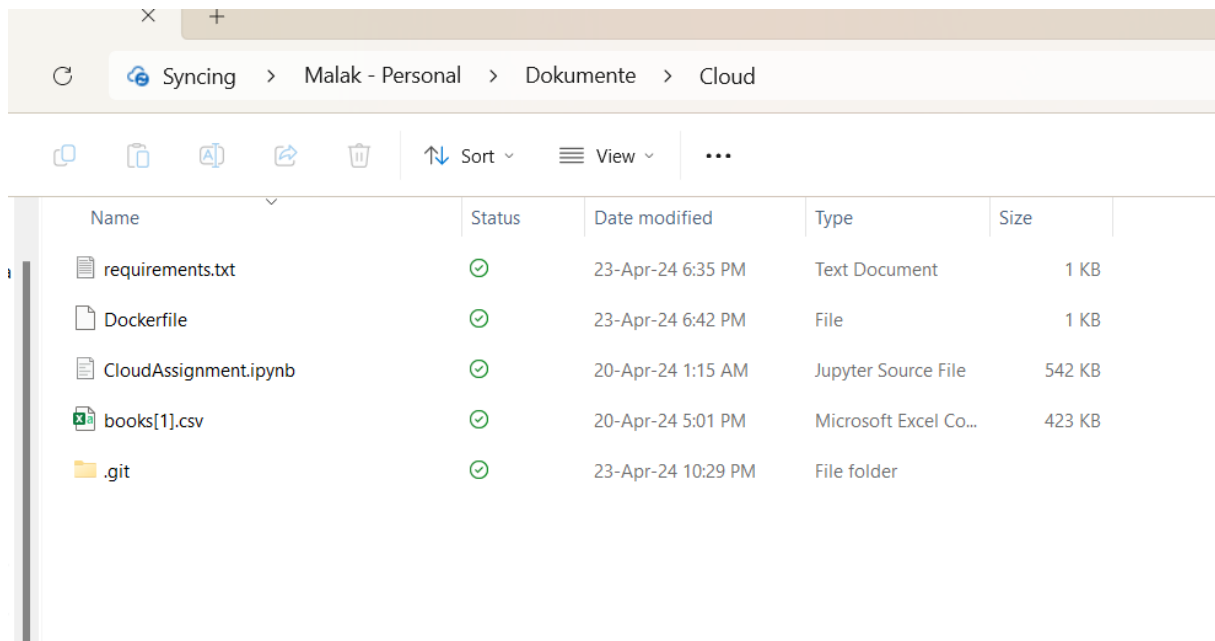

```
PS C:\Users\malak> cd "C:\Users\malak\OneDrive\Dokumente\Cloud"
PS C:\Users\malak\OneDrive\Dokumente\Cloud> docker build -t assignment .
